

Whole Dried Potato

DESCRIPTION:

All of our Whole Dried Potatoes are domestically washed, 100% mechanically dried & specifically ground to the customer's requests. For pets with grain-based allergies, potatoes are a wonderful alternative-ingredient that also promotes the health of their intestinal tract. Potatoes are a great source of starch, minerals & vitamins and are a wonderful addition to an overweight pet's diet, due to the limited amounts of fat and zero cholesterol. The high levels of vitamin A & C in potatoes have antioxidant qualities that can protect pets from the effects of cancer. Whole Dried Potato (a safe, GMP+ Certified & fully traceable product) has availability year round through Clean Dried Processing, Inc.

TYPICAL ANALYSIS:

Crude Protein	9% Minimum
Crude Fat	1% Minimum
